	Chemical Engineering Technology		36		36
	Chemical Engineering Technology – Environmental		36		36
	Electromechanical Engineering Technology	36		30	36
	Electronics Engineering Technology	36		30	36
	Manufacturing Engineering Technology*			30	36
	Mechanical Engineering Technology – Design and Drafting			30	36
Mechanical Engineering Technology			30	36	
*No longer offered.					

<p>Prospective transfers</p>	<p>CBU has an agreement with many colleges which results in transfer credit being given to specified Engineering Technology Diploma graduates, such that as few as 30 to 36 credits from CBU would be required to complete the BET Degree program.</p> <p>Prospective students are encouraged to contact their college for information on the agreement with CBU or to contact CBU directly. Where no agreement exists, individual consideration will be given to possible transfer credits. In any case, however, residency requirements must still be met.</p> <p>Electives: Selection of all electives must be done through prior consultation with a faculty advisor from the program.</p> <p>Residence requirements: Graduation with the degree (or diploma) normally requires that the student take a minimum of 50% of the program's required courses from CBU. CBU distance courses can be included to meet the residency requirements. Some joint programs, such as the articulation agreements previously noted in the Transfer Credit section, may allow special circumstances which differ from this minimum.</p> <p>Graduation requirement: For this three year program, a minimum of all courses in the program (or approved equivalent) must be completed to be eligible for graduation.</p>
<p>How To Apply</p>	<p>Students holding a completed diploma in any of the above agreements can apply to Cape Breton University online at www.cbu.ca/apply. At the time of application, students will choose the <i>post-diploma</i> option of the degree and have all official transcripts forwarded to CBU. Once admitted into the program, students can meet with an academic advisor to help select the courses to complete their Bachelor of Engineering Technology degree.</p> <p>Early Commencement : Students, in the final year of their qualifying Technology Diploma, may enroll in applicable CBU BET courses prior to completion of their Technology diploma. Such students will be admitted into CBU as " No Specific Program " students, and may, with faculty advising, complete up to a maximum of 50% of the required BET program courses during this period. Note: These students must subsequently obtain their qualifying Technology Diploma to be admitted into the corresponding CBU BET Degree program and to be eligible to be awarded the BET Degree.</p>
